

Casper Minds

MAY 2015

Happy May Day!

Casper Minds has many new and exciting opportunities for our clients and families!

Casper Minds is in the process of collecting information in order to start a private school for individuals with High Functioning Autism, ADHD, EF, IP, TBI along with other social communication challenges. The school will start with 3rd grade through 5th grade. This is so we are able to take a slow approach as not to jump in with both feet as maintain the Casper Minds Philosophy. We also want to make sure that we are able to maintain open communication with parents and the community regarding this adventure. The proposed name of the school is The Albert Einstein School of Exceptional Students. It is not set in stone, so if you have any other ideas, please let us know!

Casper Minds would also like to thank the “Mom’s” as Mother’s Day is fast approaching.

As most of you know, the world is still rotating because of the hard work, loving, understanding of those Mother’s who take care of us.

Happy Mother’s Day from your family at Casper Minds!
